

EDWARD ISAYEV

isayev@bc.edu

RESEARCH INTERESTS

I am most interested in the BCOV conjectures, which arise from mirror symmetry and Gromov–Witten theory. My current work specifically concerns the higher-genus behaviour of certain singular Calabi–Yau hypersurfaces in weighted projective space via purely algebro-geometric methods.

EDUCATION

Boston College <i>Ph.D. in Mathematics</i>	August 2024 - May 2029 (expected) <i>Chestnut Hill, Massachusetts</i>
• Advisor: Qile Chen. • Thesis Topic: Higher genus Gromov–Witten theory of hypersurfaces in weighted projective space.	
Boston College <i>MA in Mathematics (Obtained en route)</i>	August 2024 - August 2026 <i>Chestnut Hill, Massachusetts</i>
University of Edinburgh <i>Master of Mathematics (with Honours) in Mathematics</i>	September 2020 - July 2024 <i>Edinburgh, Scotland</i>
• Graduated with First Class Honours. • Master’s Thesis: <i>K-polystability and Fano Varieties</i>. Advisor: Ivan Cheltsov • Bachelor’s Thesis: <i>The Beautiful World of Smooth Fano Threefolds</i>. Advisor: Ivan Cheltsov	

AWARDS AND HONOURS

- **Morrissey College of Arts and Sciences Presidential Fellowship.** The Morrissey College’s “most prestigious award”, a five-year supplemental fellowship given to a small number of incoming doctoral students in recognition of their academic preparation and scholarly promise.
- **2026 Donald J. White Teaching Excellence Award.** Awarded to one teaching assistant across the mathematics department, in recognition of outstanding teaching contributions.

TEACHING & LEADERSHIP EXPERIENCE

Teaching Assistant <i>Boston College</i>	August 2024 - Present <i>Chestnut Hill, Massachusetts</i>
• Calculus I for Life and Social Sciences • Calculus II for Mathematics and Science Majors • Calculus I for Mathematics and Science Majors • Principles of Statistics for Health Sciences	Fall 2024, Summer 2025 Spring 2025 Fall 2025 Spring 2026
Mathematics Outreach Team <i>University of Edinburgh</i>	September 2020 - May 2024 <i>Edinburgh, Scotland</i>
MathPALs (Peer Assisted Learning) <i>University of Edinburgh</i>	September 2022 - May 2023 <i>Edinburgh, Scotland</i>

WORKSHOPS & CONFERENCES

Workshops:

Moduli of Varieties Summer Graduate School (SLMath)

Berkeley, July 2026

Moduli Spaces of Pseudo-Holomorphic Curves (Mentored by John Pardon)

Oneonta, May 2025

Conferences:

Clay Research Conference

Oxford, September 2023

Birational Geometry and K-stability of Fano Varieties

Edinburgh, November 2022

SELECTED SEMINAR TALKS

A Gentle Introduction to Enumerative Geometry

GIST Seminar (Spring 2026)

Introduction to K-stability

GIST Seminar (Fall 2025)

Homotopy Groups of Spheres

GIST Seminar (Spring 2025)

TQFTs

GIST Seminar (Fall 2024)

Introduction to Khovanov Homology

Skein Lasagna Modules Reading Group (Fall 2024)

LANGUAGES

- Native English, bilingual Russian.
- Fluent in Irish.
- Conversational and mathematical French.
